

## Master's Degree in Public Health Applied Community & Economic Development Sequence

**Applied Community & Economic Development Fellows** and **Peace Corps Fellows** in public health fulfill the requirements below for a sequence in applied community and economic development. The information below is subject to change.

The Master of Public Health (MPH)/ACED Fellows program is designed for students who aspire to work on vital health issues facing the citizens of our country and world. The program is especially relevant to students who have gained an appreciation for the complexity of health and social problems and recognize the need for developing solutions in thoughtful, systematic, and creative ways. People with various undergraduate degrees in applied health disciplines, life sciences and social sciences will find the program well-suited to advance their careers. Through coursework and field work, the MPH-ACED Fellows Program at Illinois State University enhances the skills of experienced students working to become the new generation of development specialists.
